

The Cape Gazette letter to the editor, 10/29/10

McCabe will make a fine representative

I would like to take this opportunity to congratulate the voters of Sussex County's 36th Representative District on the opportunity they have to send Russ McCabe to Dover on their behalf. Having him in the state Legislature will be good for their district, Sussex County and our beloved Delaware.

Russ has been a good and respected friend of mine for a number of years. He has impressed me as an articulate, intuitive and sincere person who wants to make our "Small Wonder" even more wonderful. He is a firm believer in the adage "He who does not study history is doomed to repeat it." Studying and preserving the vibrant history of our state has been Russ' passion throughout his adult life and that has given him the perfect skill set to be a strong advocate for the 36th in Dover. He is well aware of the issues that need to be addressed and the course that needs to be set to bring our county and state through this tumultuous time. Above all he will be a voice of reason for preserving the lifestyle, ecology and natural beauty that is Sussex County.

What I like most about my friend Russ is his love and respect for his neighbors and fellow Delawareans. He is truly a man of the people and I don't think he has ever met an enemy. His ability to listen to, discuss and understand another person's viewpoint may be the most important tool that he brings to Dover with him because, in these divisive times, we need all the voices of reason that we can get. Once again voters of the 36th, congratulations, Russ McCabe will make a fine representative for you in Dover.

Don Allen
