

“A better education means a better job!”

–Russ McCabe

# OUR CHILDREN, OUR FUTURE

A parent himself, Russ McCabe knows that economic security and a better quality of life depend on a good education. As our representative, Russ will press for:

- Better educational and training opportunities for children and for adults changing careers later in life
- Educating for the future and the demands of a changing job market
- Supporting and equipping teachers in the practical ways they need
- Parental and community involvement in our local school districts
- Efficiency and cost-effectiveness, cutting unnecessary administrative spending
