CUT SPENDING?

RUSS McCABE HAS A PLAN

While working at the Delaware Public Archives, I witnessed a steady expansion of state programs and spending. Simply put, when times were good, government grew. Now more than ever, as we face economic challenges at home and in the workplace, we must do everything to ensure that our tax dollars are being used wisely and carefully. It's easy to talk about leaner and smaller government – it's time for real solutions.

NEW RULES FOR PURCHASING

As a Division Director, I had to approve agency purchases and saw that Delaware's current centralized purchasing practices often resulted in higher costs. Limiting purchases to selected vendors is anti-competitive and expensive. I will push to change our purchasing rules. The state should be able to shop for the best price.

BUILDING A BETTER STATE GOVERNMENT

We must identify activities which are critical and eliminate those that are not. I will press for a thorough, honest and open study that results in a real plan to reduce the cost and size of government. I will also insist that our citizens have input in these hard but necessary decisions.

Let's stop talking and start moving forward!
