"IT'S ALL ABOUT JOBS!"

ECONOMIC GROWTH AND JOB CREATION — OUR FIRST PRIORITY

Fed up with watching friends and neighbors lose their jobs and even leave Delaware to find work, Russ decided to do something about it by running for State Representative.

SMALL BUSINESSES NEED OUR SUPPORT

Russ will fight to cut through the red tape and streamline small business creation. He will seek to end tax breaks for businesses that fail to create and maintain Delaware-based jobs, restricting tax incentives to companies that hire locally.

RUSS WILL STAND UP FOR OUR FARMERS

Russ will help our farmers maintain and enlarge their operations by supporting farm-friendly legislation. He will remain very accessible to his farming constituents and vigorously represent their unique needs in Dover.

EDUCATION IS PART OF THE SOLUTION

Because well-paying jobs are dependent upon good preparation, Russ will push for improved educational and training opportunities so our young people can attain a good quality of life without leaving Delaware.
